April is National Distracted Driving Awareness Month

In honor of National Distracted Driving Awareness Month, the Kentucky Office of Highway Safety (KOHS) and law enforcement agencies are asking drivers to keep their eyes on the road and hands on the wheel as part of the One Text or Call Could Wreck It All campaign.

“Distracted driving is a growing threat as too many drivers are ignoring their responsibilities behind the wheel,” said KOHS Executive Director Dr. Noelle Hunter. “By educating drivers on the consequences of distracted driving and following through with traffic enforcement, we are sending a clear message that we are serious about stopping this deadly behavior.”

While anything that takes a driver’s eyes off the road, hands off the wheel or mind off the task of driving is a hazard, the risk of texting while driving causes heightened concern because it combines all three types of distraction – visual, manual and cognitive.

“Texting and driving is illegal and irresponsible, but unfortunately, we see it on a regular basis,” said Kentucky State Police Sgt. Josh Lawson. “Drivers must know that if you are caught texting behind the wheel, you will

be stopped and fined.”

Violating Kentucky’s texting law, which took effect April 15, 2010, can be costly. Violators are liable for fines of \$25 on a first offense and \$50 on each subsequent offense, plus court costs.

The law bans texting for drivers of all ages while the vehicle is in motion. For drivers over 18, the law allows the use of global positioning devices and reading and selecting or entering a telephone number or name for the purpose of making a phone call. Texting is allowed only to report illegal activity or to request medical or emergency aid.

For drivers under 18, no use of personal communication devices, such as cell phones and pagers, is allowed while the vehicle is in motion. The use of a global positioning system is allowed, but manually entering information must be completed while the vehicle is stopped.

“We also want drivers to realize that a fine is not the only consequence of distracted driving,” said Hunter. “In fact, our campaign hits close to home.”

A radio spot was recorded by Transportation Cabinet employee Nancy Wood, the public information officer in the District 6 office in Covington. Nancy’s daughter, Brianna, was severely injured when her vehicle was hit by a distracted driver in 2011.

“It’s been a long journey with multiple surgeries and hospital stays, but Brianna is lucky because she survived,” said Wood. “I hope my story will help prevent other parents from receiving the type of call we all dread – that our child has been involved in a crash.”

In Kentucky, there were more than 57,000 crashes last year, resulting in 14,600 injuries and 147 fatalities due to distracted driving.

According to a 2014 report in the New England Journal of Medicine, the risk of a crash or near-crash among novice drivers increased with the performance of many secondary tasks, including texting and dialing cell phones.

An analysis by the AAA Foundation for Traffic Safety of 2009-2012 data found that while more than 80 percent of drivers believed it was completely unacceptable for a motorist to text behind the wheel, more than a third of those same drivers admitted to reading text messages while operating a passenger motor vehicle themselves.

“It’s not about writing tickets,” said Sgt. Lawson. “It’s about saving lives.”

Straight line winds damage several structures

Emergency Management Director Neider Reynolds was informed by the the National Weather Service in Wilmington, OH, that all indications point to straight line winds being the cause of the damage during the evening storm last Tuesday, April 3rd. Straight line winds can reach up to 100 m.p.h. with the up-draft and down-draft turbulence. This can give the appearance of a tornado and can have the trademark “freight train” sound.

With straight line winds, structures will fall to one side, staying mostly intact, while tornadoes cause a twisted action on structures, trees, etc., and debris can be scattered all over and even driven into the ground.

Damage was seen in the Lenoxburg area, the Augusta-Berlin Road where a barn, shown above, on the farm of Bob and Lynda Huesing was damaged, two large trees were uprooted, and Dutch Ridge Road, where the farm of Bob Appelman received damaged to several buildings. The Huesing barn had 45 round bales of hay and an International 585 and Ford 7610 tractors stored inside when the storm came through.

In all, nine buildings, mostly barns went down in the storm, and one house was reported to have had 1/2 the roof removed during the storm.

AIS Baseball & Softball Teams host Pancake Breakfast this Saturday

The Augusta Athletic Department’s Baseball and Softball Teams are sponsoring a Pancake Breakfast on Saturday, April 14th from 7 a.m. to 11 a.m. The menu will consist of pancakes, sausage patties, scrambled eggs, juice, milk, and coffee. The cost for the breakfast is \$5.00.

There will be several politicians on hand to meet and greet as well. Come out and support these fine athletes.

WoodmenLife Fish Fry set for Sat., April 21st

WoodmenLife, Chapter 871, Germantown, will have their annual Fish Fry on Saturday, April 21, 5 – 7 p.m. at the Bracken County Extension Office, 1120 Brooksville Germantown Road, Brooksville, KY.

The menu will consist of fish, hot dogs, buns, baked beans, macaroni and cheese, cole slaw, chips, cookies, sweet tea, and soft drinks.

The all you can eat meal is free to all Woodmen members. Non-members are also welcome, and their cost is \$5 for adults and \$3 for children 12 and under.

Bracken County EMS holds STEMI Drill and Evaluation

On Monday, April 9th, the Bracken County EMS, held a STEMI Drill at Donna’s Place in Brooksville. The emergency scenario was of a male customer with symptoms of a heart attack or elevated myocardial infarction. Bracken County EMS was called for the customer, portrayed by Bracken County Magistrate Scotty Lippert. Once they arrived, the STEMI Drill was evaluated by representatives from St. Elizabeth Hospital in Edgewood and Air Evac 89 in Brown County, OH.

The EMS was evaluated on their early notification of the Air Evac helicopter. Availability can be checked while en route to the scene.

The EMS is looking into doing a strip transmission to St. Elizabeth Edgewood through a cell phone app. At present, the app would cost \$1,000 a month. With that cost in mind, they are checking into taking a picture of the strip and how to transmit it to St. Elizabeth.

The transmittal of the strip could make all the

difference in the patient surviving a massive heart attack. The EMS is able to do a 12 lead reading of the patient that shows all sides of the heart. With this strip transmitted to the hospital, doctors will be able to cater the treatment to each individual patient, thus enabling a quicker response time when the treatment can be most beneficial. The transmittal can be completed by the EMS personnel while they are at the landing zone while awaiting the Air Evac helicopter.

Evaluation was also performed on the actions of Air Evac crew which consists of a nurse, paramedic and pilot, as well as the performance and procedures of the cath lab at St. Elizabeth.

The STEMI drill was done in Bracken County because we are the farthest area served by St. Elizabeth Hospital in Edgewood and for our proximity to Air Evac 89 out of Brown County, OH.

Participating in this training were Brent Jaynes - EMS Director, Kelly Muse - Paramedic and Assistant EMS Director, representatives of

St. Elizabeth Edgewood and Air Evac 89.

Residents are urged to know the signs of a heart attack and to take immediate action. You should also discuss your risks for a heart attack at your next doctors appointment.

Symptoms include pressure, tightness, pain or a squeezing or aching sensation in your chest or arms that may spread to your neck, jaw, or back;

nausea, indigestion, heartburn, or abdominal pain; shortness of breath; cold sweat; fatigue; or lightheadedness or sudden dizziness.

Should you experience any of the symptoms described, call 911 immediately.

EMS and Air Evac crew members are shown evaluating Scotty Lippert before airlifting him.

Senior Citizens Happenings

Welcome to Senior Citizens Happenings. We are located at 110 Grandview Dr., Brooksville. Phone 606-735-2948 ask for Sheila. She will be more than happy to assist you. Open seating is on Tuesdays and Thursdays. We have our Pledge to the Flag and sing “My Country Tis of Thee”. We have updates from Sheila and at times guest speakers. Lunch is served at noon. Seniors is open 8-4 p.m. Like to play euchre? Come and play on Tuesday and Thursday. We have cookies, peanut butter & crackers, juices, and coffee of the mornings. We will be looking forward to seeing more seniors come and join our happy family.

Tues., April 3 - we were glad to welcome Heather Rechlin, a candidate for Circuit Clerk. She explained her job responsibilities and answered our questions. Appreciation to Heather and all the rest of the candidates that have come and spoke to the seniors.

Sheila brought us up-to-date on our sick: Hazel Welch, Peggy Tucker, Brenda Roth, Ellen Perfect, Eva Mae Bravard, Todd Jefferson (chemo), Jay Jefferson (hand is doing better).

We were sorry to hear about Mr. Glenn Littleton’s dog passing away. He was 12 yrs. old plus and had been a wonderful companion for Mr. Glenn. Betty Hargett’s bird passed away. Our pets bring us so much joy, happiness and love to our lives. To many they are family.

David Jefferson led us in prayer.

We had such a nice crowd today.

Our bingo winners: Pauline Jefferson, Phyllis White, Reed Bailey, Linda Jefferson, Edna Holleran, Shirley Bailey. Cover all Reed Bailey.

Thurs., Apr. 5 - Appreciation to our little Ms. Jackie Hamilton on the beautiful and bright color hues of Springtime! Everything is full on bloom at Seniors, but the snow and cold weather just wants to stay around a little bit longer!

Today, we welcomed “Air Medicare Network”. They are medically equipped helicopters that rapidly transport patients to the nearest appropriate medical facility in a life or limb threatening emergency. They give membership coverage in over 200 locations across the U.S. There were several that signed up for this today. We appreciate them coming and sharing this information and several questions were asked by our seniors.

We also had Rae Jean Poe with us. She is a candidate for County Clerk and has been in this office for 16 years. She answered questions and told about her job descriptions. She also passed out ink pens and note holders. We appreciate you coming today Rae Jean.

Let’s keep all our sick in prayer and those that have lost loved ones. David Jefferson led us in prayer.

Now let the games begin: euchre and bingo!

Our bingo winners: Phyllis White, Shirley Bailey, Shirley Young, Barbara Woodruff, Linda Johnson, and cover all was Phyllis White.

Augusta Art Guild Announces Poster Winner

Theresa Barnes accepting a cash award from Augusta Art Guild board member Rolland Tongret for winning the 2018 “Art in the Garden” Poster Competition.

Photo submitted

The Augusta Art Guild is pleased to announce that Theresa Barnes has won this year’s “Art in the Garden” Poster Competition. The annual competition provides artists with an opportunity to create original art that is used to promote “Art in the Garden” - a juried art festival that features dozens of local and regional artists, live music, children’s activities, wine booth and local food vendors. “Art in the Garden” takes place Saturday, June 2nd on Riverside Drive in Augusta, Kentucky from 10 a.m. – 5 p.m.

Mrs. Barnes, a textile artist, accepted her cash prize for the winning entry at April’s Monthly Member

meeting. Her needle felted painting, “Summer Hummingbird” was one of several entries submitted for the competition. AAG members voted for their favorite entry in March. Mrs. Barnes is also a longtime guild member and is currently serving as board president. She is the owner of Textile Treasures.

Graphics will be added to the scanned image to create the “Art in the Garden” poster, which will be available for sale at the Welcome Booth during the event.

For more information on “Art in the Garden” or the Augusta Art Guild, visit www.AugustaArtGuild.com.

Thoughts and Meditations from the Scriptures

BELIEVING IS SEEING

We all know the old saying “seeing is believing,” which makes perfect sense, since it is hard to doubt something that is right in front of you. But the equation of seeing and believing works both ways. That is, we often believe only because we have directed our eyes, or our mental gaze, in the direction of something. Many of us believe in God because we have seen His work in our lives or have experienced him in a way that is hard to doubt. Many view the natural world around them as the handiwork of God and this strengthens their faith. The eleventh chapter of Hebrews gives a working definition of faith as “confidence in what we hope for and assurance about what we do not see.” (Hebrews 11:1 NIV) Those who believe without seeing are sometimes commended for their faith, but sometimes, in the effort to strengthen our faith, we really need to look harder. If you aren’t looking for God in the world then you probably won’t see Him there, whereas if you make a determined effort to see God, both in the guise of your fellow human beings, and in the natural world all around you, you are sure to see Him everywhere. – *Christopher Simon*

“For since the creation of the world God’s invisible qualities—his eternal power and divine nature—have been clearly seen, being understood from what has been made, so that people are without excuse.” —Romans 1:20 NIV

Rob Schweitzer will be here Tues., Apr. 17. He is a candidate for Judge Executive.

Thurs., Apr. 19 will be Volunteer Appreciation Day.

Tues., Apr. 24 will be our Nutritional Program with Shannon Smith and Mary Lou Simons.

Wed., Apr. 25 our seniors will be going to Ponderosa for lunch. The lunch is provided by the Senior Activity Fund Raiser Committee.

Thurs., Apr. 26 the Bracken County Library will be doing a craft day.

We have lots of activities planned so we welcome you to Seniors.

May our prayer be to open our eyes to the needs of others and show us how we can make a difference in someone’s life today and all year.

Maysville Players Hop into rehearsal for upcoming production of “Harvey”

Seeing is believing...especially if you are on the lookout for a six-and-a-half-foot-tall, invisible white rabbit named Harvey!

Casting is complete and rehearsals are well underway as the Maysville Players prepare for the upcoming production of “Harvey.”

Directed by Mike Thomas, the classic comedy by Mary Chase, will be presented at the Washington Opera House April 19-22 & 26-29 with performances at 7 p.m. on Thursdays, 8 p.m. on Fridays and Saturdays, and 2 p.m. on Sundays.

“Our audiences have been asking us to produce this show for several seasons,” Thomas said. “We have assembled a talented cast, designed great set pieces, and are ready to serve up some laughter.”

Originally produced on Broadway in 1944, the plot of the Pulitzer Prize-winning comedy centers around an eccentric gentleman named Elwood P. Dowd whose best friend happens to be an invisible rabbit he calls ‘Harvey.’ Considered a disgrace, Dowd’s relatives scheme a plot to have him committed to a sanitarium and put an end to future embarrassment.

“As in all good comedies,” Thomas explains, “things don’t always turn out as planned!”

Local stage favorite Eric Lohman is featured as Elwood, the iconic role played by Jimmy Stewart in the 1950 film version.

“I selected this show with Eric in mind,” Thomas said. “He has great comedic skills mixed with a sensitive, caring manner which serve the show and the character very well.”

Joining Lohman will be Leah Frederick as Veta Louise Simmons, Elizabeth Schellenberger as Myrtle Mae Simmons, Sharyn White-Coe as Madame Chauvenet, Jennifer Stricklett as Nurse Kelly, Jacob Fritz as Dr. Sanderson, David Green as Wison, Micah Evans

as Dr. Chumley, Carolyn Least as Betty Chumley, Brad Sorrell as Judge Gaffney, and Steve Zweigart as E. J. Lofgren.

“This is a very talented cast with a mix of new and familiar faces on our stage,” Thomas said.

Leah Frederick

“Rehearsals have been progressing nicely and I believe we will have a delightful hit on our hands!”

This is the second

Elizabeth Schellenberger

time the invisible rabbit appeared on the stage of the Washington Opera House. The Maysville Players first presented “Harvey” in 1967 with a cast that featured Charlie Clift as Elwood P. Dowd and June Staker as Veta Louise Simmons; supported by Bob and Beryl Parsons as Dr. Sanderson and Nurse Kelly. Junie Calvert was also featured as Dr. Chumley.

Tickets are priced at \$15/adults, \$12/seniors 65 and over, \$10/students 18 and under. All seats on both of the Thursday performances are only \$10 each and may only be purchased at the box office one-hour prior to the 7 p.m. curtain time. Reservations are suggested for the other performances and can be made by calling (606) 564-3666 or purchased on-line at maysvilleplayers.net.

AAG to offer Fascinators Workshop, Tues., April 24th

Just in time for the Kentucky Derby, the Augusta Art Guild is offering a fun, new workshop where participants will create a fabulous, one-of-a-kind fascinator. Fascinators are small, formal pieces of headgear usually decorated with feathers, bows and baubles that are de rigueur at “The Run for the Roses.”

Taught by talented textile artist Abby Langdon, this workshop is an introduction to the fine art of millinery. More examples of Ms. Langdon’s work can be viewed at www.abbydid.com.

The Fabulous Fascinator Workshop will be held on Tuesday, April 24, 2017 from 5:30 – 8 p.m. at the Augusta Art Guild. Cost of the class, including materials, is \$20 for Guild members/\$30 for non-members. Space is limited so please contact Leah Frederick at (513)289-9800 to reserve a seat. This adult art workshop is sponsored in part by a generous grant by the Hayswood Foundation.

Card of Thanks

Charles and Margaret Lucas would like to thank everyone for their prayers, cards, and phone calls during Charles stay at UK and Cardinal Hill. We are so appreciative for the people who have visited and provided meals during and after his stay. A special thanks to Gary Figgins and Michael Cannon for visiting and praying with us. Charles is recuperating at home, growing stronger each and every day.

Sincere thanks,

This class is ideal for kids age 4-12 years old. The cost is \$10 per family and you must register by Wed., April 18th. The Bracken County Extension Office will host this event. Stop by the office or call 735-2141 for more information.

Garrett Flynn, Brayden Ray accepted to Craft Academy

The Craft Academy for Excellence in Science and Mathematics at Morehead State University has selected 60 students for its Class of 2020.

Students selected for the Craft Academy Class of 2020 include Garrett Flynn, son of Brian and

Karla Flynn from Bracken County High School, and Brayden Ray, son

of Deron and Jenny Ray, who is being home schooled.

"Craft Academy welcomes its fourth class; the Class of 2020. These young people represent some of the best and brightest students in the Commonwealth who have an expressed interest in pursuing a STEM career. Craft Academy and Morehead State University look forward in expanding the goals and aspirations of these students as they dedicate their academic efforts to Imagine, Invent and Impact, Kentucky and beyond," said Dr. Carol Christian, Craft Academy director.

The Craft Academy for Excellence in Science and Mathematics will meet the unique educational needs of academi-

cally gifted and talented high school juniors and seniors in the Commonwealth. A college-level curriculum will allow students to finish high school while also completing up to two years of university coursework. It will offer a residential college experience and environment to promote innovation and a creative enterprise, developing the full potential of the state's brightest minds and most promising future leaders.

In addition, the Craft Academy will offer unique, project-based STEM+X courses that will enrich educational experiences and develop competencies in entrepreneurship and innovation, design and creativity, and civic and regional engagement.

Students will live on campus designed for high school aged students. The facility will have meeting and social space and be staffed 24/7. Counselors and advisors also will be available.

Students were selected based on ACT scores, academic grades from their first two years of high school, interest in advanced STEM careers, responses to application essay questions, interview by the Academy selection committee and recommendations from teachers and others who can attest to the student's need and preparedness for the program.

At the end of the two years, students will have earned a minimum of 60 credit hours, finished high school and have the opportunity to further their education at MSU or transfer to any other college/university in Kentucky or elsewhere.

Additional information on the Craft Academy for Excellence in Science and Mathematics is available by calling Dr. Christian at 606-783-9025.

Renewable Energy, Technology Earmarked for AHS Grant

The R.C. Durr Foundation is an invitational-only grant that allows high schools in northern Kentucky to submit proposals. The goal of the foundation is to provide technology resources to rural high schools to improve instruction and to prepare students with the skills needed in 21st century Careers. Augusta Independent was recently notified that three of its proposals had been awarded, including two \$2,500 classroom level grants and the \$25,000 school-level grant, totaling \$30,000.

The first \$2,500 classroom-level grant will provide four new computers for the school library. Currently, several of the computers are outdated, so this will allow those machines to be replaced.

The second \$2,500 classroom-level grant, authored by English and Journalism Teacher Colleen Taylor, will be used to purchase a new digital camera and MacBook Air

laptop. These items will be used to help create the yearbook and for student projects.

The school-level grant of \$25,000 was written for renewable energy equipment. Ten 50 Watt Complete Hybrid Wind and Solar Systems will be purchased.

The second set of products purchased will be ten Horizon Energy Boxes. In addition to providing smaller scale versions of wind and solar energy, these kits include multiple methods of renewable energy, such as ethanol, salt water, and hydrogen fuel cells.

"Typically, the expense involved in some of these projects, particularly of the renewable energy project, would prohibit our students from having such experiences," Technology Director Tim Litteral stated. "We appreciate the generosity of the Durr Foundation to allow us to implement advanced technology in our school."

Michael Wagner's Artwork at ORVAG Shop in Cox Building

Winter cannot last forever. Spruce up your house with a painting by Michael Wagner. Michael is a retired Mason County High School, Junior High and Middle School art teacher, earning his undergraduate and graduate degree from Morehead State University.

Michael's prolific creation of oil paintings have a broad view. The riverfront landscapes and architecture distinctive to Maysville and Augusta are his favorite subject matter. Besides those paintings, his childhood memories of growing up in rural Fleming County on a dairy and tobacco farm leads him to paint images very familiar to him: chickens, roosters, cows, and still lifes. He personally frames each piece from authentic Kentucky barn wood. His work lets you reflect on years gone by, evoking many emotions of life in the past while letting you see his most treasured memories.

When not painting for his galleries that exhibit his work, Michael accepts commission work. For contact infor-

mation about Michael Wagner, contact the Ohio River Valley Artists Guild through their website www.ORVAG.com or their Facebook page.

Michael's work may be scene at the ORVAG gift shop on the first floor of the Cox Building, 2 East Third St., Maysville, KY 41056. The shop and gallery on the second floor are open Tuesday, Thursday, Friday and Saturday from noon until 4 p.m. If you are unable to come when the gift shop/gallery is open, please contact Dee Werline, 513-314-1175, to make other arrangements.

Child Abuse Prevention Month 2018 Proclamation

Whereas, the month of April is designated each year as the National Child Abuse Prevention Month; and

Whereas, the prevention of child abuse and neglect requires the education and involvement of people from all walks of life in the community; and

Whereas, mistreatment of a child typically occurs when people in stressful situations do not know how to cope and are without necessary community resources to assist them; and

Whereas, child sexual abuse occurs when children are not adequately supervised or when warning signs of abuse are unknown or ignored; and

Whereas, during times of difficult financial challenges, families are often at their most vulnerable, and instances of abuse and neglect increase drastically; and

Whereas, incidences of child abuse and neglect can be reduced by making sure that families have the support needed to raise children in a safe and healthy environment; and

Whereas, child abuse is a serious problem in our Nation and that such abuse during childhood is unquestionably linked in later life to various physical ailments and emotional problems, as well as many psychological and behavioral disorders; and

Whereas, we should all be actively involved in providing support for families and helping to make our community a safe and nurturing environment for parents, families and children to live and grow without fear of abuse or neglect; and

Whereas, the truly effective child abuse prevention programs succeed only because of partnerships created between parents, custodians and children with the state and local agencies, schools, church communities, civic organizations, businesses and law enforcement officers;

Now, therefore, be it resolved, that the month of April 2018 is proclaimed to be **Child Abuse Prevention Month** in the 19th Judicial District of Bracken, Fleming and Mason Counties, Kentucky. I urge all citizens, community agencies, churches, medical facilities, and businesses to join in our efforts to support children and families.

“A Taste of Strings” to perform Fri., April 20th at the AIS Gym

Continuing its mission to “Bring Arts to the Community”, The Augusta Art Guild’s Cultural Outreach Program is proud to host the St. Michael String Project at the Augusta Independent School at 10 a.m. on Friday, April 20th in the gymnasium. Specially created for this event, the performance is designed to give the students a taste of what learning and performing the violin is like.

The String Project was founded in 2016 by musician/music teacher Harry Pedigo. A native of Ripley, OH, Harry has performed in numerous venues from Nashville, IN to Beanblossom, IN, playing old-time fiddle and bluegrass. He has just completed his first EP of original fiddle music and will be performing it around the tri-state this summer.

The St. Michael String Project was created with one objective in mind -to get instruments into the hands of students at St. Michael Catholic School in Ripley, OH. Students from first to eight grades are provided with instruments ranging from ukuleles, guitars, dulcimers and violins. These students have now performed on live radio, at community events and festivals. Harry sums up his philosophy about teaching music by saying “why talk about music when you can play it?”

This will be the 17th event sponsored by the Augusta Guild’s Cultural Outreach Program which has hosted performances from Ballet, Opera to Shakespeare. These cultural opportunities have been made possible by the generous donations of guild members, Alan and Jo Ann Tongret.

The performance is geared for all ages and is open to the public.

Check in at the front school office if attending. For more information contact Del Tongret at 765-720-7594.

Trash Talk

by: Mr. Recycle Bin & Ms. Pick-Up Litterbug

Howdy Folks! On Sunday, April 22, folks from over 192 countries not only reflect, but do something, about the health of the environment! Earth Day began with an idea of then Wisconsin Senator Gaylord Nelson who proposed it as a day to help the public understand the necessity of, and positive actions necessary, to protect the environment. An avid proponent of stewardship, a massive oil spill off the Santa Barbara, California, coast inspired Senator Nelson to educate citizens on the importance of Mother Earth's environmental health!

Earth Day was born on April 22, 1970 and twenty million Americans came out to support it! April 22 was specifically chosen to maximize the number of college-aged kids that could participate because that date was after most colleges' Spring Break but it was also before the mayhem of college finals! In 1990 Earth Day became a global event with 141 countries involved and 200 million people! Today, the Earth Day Network (EDN) is the global coordinator of Earth Day and is building the world's largest coalition of people united for a healthy planet! EDN works year round with more than 50,000 partner organizations in 192 countries to bring new voices into the environmental movement.

In 2020 Earth Day will be 50 years old and

the countdown has already begun for EDN to get as many global citizens involved in the crusade to save the environment for everyone here and now and for generations yet to be born! Beginning in 2016 they developed themes for the five years leading up to the 50th celebration and 2018's theme is "End Plastic Pollution"!

Among the billions of earth's population what can I, as only one person, do to help the environment and give Mother Earth a new, better and longer life? The answer is for each one of us to take baby steps each day! If each and every household and business in the United States would turn off lights when not needed, just think of the impact of that simple flip of the switch! And what if each of us recycled nothing more than the aluminum cans that we use daily? Annually, the world's consumption is 200 BILLION cans averaging out to 6,700 cans per second or enough to go around the 24,901 miles of the earth's circumference every 17 hours! If it were possible to drive around the earth's circumference it would take you 17 days! So how about it? Instead of only 50% of all cans recycled, let's make Bracken County's rate 100% recycled! Set aside April 22 to renew your efforts of RECYCLING, REUSING and REDUCING to keep God's earth clean, green and beautiful! Be seen' you – *Bin & Bug*.

9th Citizen Police Academy Graduates

The Bracken County Sheriff's Office graduated its ninth Citizens Police Academy Class Wednesday night, April 4th. The ninth class had nine graduates who enjoyed ten weeks of instruction covering operational procedures and policies of the Sheriff's Office and criminal justice system. The purpose of the program is to heighten awareness of law enforcement's role in the community and the goal is to increase understanding and communication through hands on and classroom instruction.

Citizen Police Academy graduates enjoyed presentations by the County Attorney, District Judge, Circuit Clerk, Cabinet for Family and Human Services, CASA director, and School Resource Officer. Graduates also received weekly instruction and heard stories of life experiences from Chief Deputy Bob Scott, Sheriff Howard W. Niemeier, and was introduced to all of the deputies. One of the highlights of the class was the use of the Firearms Training Simulator (FATS) which puts participants in actual situations involving shoot – don't shoot situations. Members of the Sheriff's Office, Court Security Officers, Bracken County School staff and family members, and members of the community also came in and experienced the FATS training. This simulator gives participants an experience of how quick life and death decisions have to be made by law enforcement officials in the field.

Graduates also received training in the following areas over the ten week period: Crime Scene Investigation; Drugs/Narcotic Investigations; Court Procedures; Patrol Techniques & Procedures; DUI presentation; Use of Force; Law Enforcement Ethics; and other miscellaneous topics.

On graduation night the class received a tour of the Sheriff's Office and the County Dispatch Center. During the graduation ceremony a round table discussion was held to address any changes or additions that need to be made to the curriculum for the class. All the graduates felt that the curriculum was fine and that they all learned something new each night about the capabilities/duties of the Sheriff's Office and also the criminal justice system. All graduates received a plaque for attending the class and enjoyed pizza, cake and drinks. The ceremony was also attended by family members of several of the graduates and several graduates of the previous classes who came out to observe the graduation and to present information on the Citizens Police Academy Alumni. The Bracken County Sheriff's Office has now had 108 citizens graduate from the Citizens Police Academy.

The Sheriff's Office appreciates all those that instructed, participated and assisted them with their 9th Citizens Police Academy. For those interested in attending Class #10, it will begin on September 4, 2018, applications can be picked up at the Sheriff's Office and are due in by August 24, 2018.

Pictured left to right are: Chief Deputy Bob Scott, Jonathan Galloway, Roger McManus (class 8), Kimberly Branam, Amy Bussel, Timothy Smith, Willie Teegarden, and Sheriff Howard W. Niemeier. Not present - Jody Bussel, Cathy Griswold, Stacy Schneller, and David Schneller.

Vaccination Workshop, Fri., April 14th

By David Appelman,
CEA for Ag & Nat. Res.

The Bracken County Cattlemen's Association is sponsoring a Vaccination Workshop this week on Saturday, April 14th at the Litzinger Farm on Rt. 10 located between Germantown and Fernleaf.

Doctors Stanfield and Raymer will be on hand to review protocols for spring turnout and demonstrate proper methods for handling and vaccinating the herd. They will also review current cattle health issues and make recommendations for the upcoming breeding season. The workshop starts at 10 a.m. and goes until noon. Light refreshments will be served and Phase I education credit will be available for those attending.

The farm address is 4339 Hwy. 10, Dover, KY 41034. For more information, contact the Bracken County Extension Office at 606-735-2141.

Card of Thanks

I would like to thank all the merchants and people in the county that were so generous to me and Margaret Bay when we were getting items together to fill two large baskets to present to Representative John Sims Jr. and Senator Wil Schroder. Kentucky Farm Bureau had suggested this project but we had already begun ours. All items in the baskets were made or produced by someone in the county. Since the Representative and Senator were new we felt this would acquaint them with items produced within the county. Terry Bay drove us about the county to contact these producers. No one rejected our request. There were fourteen items in the baskets. Thanks to all producers.

United States Secretary of Agriculture Sonny Perdue visited Hinton Mills Thursday, April 5th, in May's Lick as part of his "Back to Our Roots" RV tour. The tour, included stops in Michigan, Ohio and Kentucky.

Secretary Perdue visited with area farmers, agribusiness owners and decision makers over lunch, then participated in a Q&A session led by David Beck, executive vice president of Kentucky Farm Bureau, and Kentucky Agriculture Commissioner Ryan Quarles.

"For government to work, we've got to communicate," Secretary Perdue told the audience. "That's why I'm here."

Secretary Perdue fielded questions ranging from the impact of the recent tariffs imposed by China, to the impact of the margin protection program on dairy produc-

ers, to improving school lunches.

"It was an honor to host the top official in U.S. Agriculture here at May's Lick Mill," said Adam Hinton, vice president of Hinton Mills. "We are so proud to showcase agriculture in our area because we know the farmers and agribusinesses here are among the best of the best."

From May's Lick Mill, Secretary Purdue continued on to Morehead for a tour of Harold White Lumber Company. While in Kentucky, he will also visit farmer and veteran Danny Townsend in Jeffersonville, tour Montgomery County High School's agriculture department, and stop by Keeneland.

Sonny Perdue has been the U.S. Secretary of Agriculture since March 2017, and previously served as the Governor of Georgia.

Children 12 and under accompanied by an adult are admitted free. Attendees will have the chance to win door prizes provided by the sponsors along with two tickets to the Sunday, April 29th, Years of Farming show featuring Alecia Nugent with West Liberty Mountain Boys as the opening band.

In the world of bluegrass music, the name Bobby Osborne is usually spoken in the same breath as words like icon, legend, innovator and influential mentor. Bobby's voice is his trademark – a soaring, powerhouse tenor that comes along once in a generation and has set the gold standard for vocalists in multiple genres for seven decades. As an instrumentalist, Bobby is one of the true stylists on the mandolin, recognized alongside other giants on the instrument including Bill Monroe, Jethro Burns and Jesse McReynolds.

Keep checking their website www.yearsoffarming.com for updates in their schedule. For more information or tickets you can contact Paula Hinton at 606-748-0798 or paulahinton2000@yahoo.com.

Spring turkey season approaching

The landscape awakens almost spontaneously from its winter slumber. Winter flocks break up into smaller groups. Innumerable turkey calls and lifelike decoys reappear at sporting goods retailers.

Turkey hunters interpret these occurrences as signs that it will not be long before they are easing into their spots before dawn, filled with anticipation.

In Kentucky, hunters still have ample time to scout and develop a game plan to increase their odds of success in the upcoming spring turkey season. This year, Kentucky's youth-only season was the weekend of April 7-8. The start of the 23-day general statewide season follows on April 14. It ends May 6.

In Kentucky, the spring hunting seasons are timed to give gobblers enough time to breed hens before subjecting the birds to hunting pressure. Kentucky Fish and Wildlife monitors turkey reproduction on a statewide scale through annual summer brood surveys.

Weather during the nesting period in May and June influences reproductive success. Heavy rains in Kentucky and surrounding states during that time-frame last year affected nesting success, which reflected in a statewide average of 1.2 poults per hen. A figure of 2.0 or higher is optimal. Hunters should expect to encounter fewer of the more easily fooled jakes as a result this season.

Kentucky annually ranks first or second among surrounding states in the number of turkeys taken per square mile.

Hunters took a record number of birds during the 2010 spring season and have averaged more than 31,000 birds over the seven seasons since.

Spring turkey hunting season opens statewide April 14 and closes May 6. The season outlook is promising as a majority of Kentucky counties show a stable to increasing harvest trend over the past decade. Kentucky hunters harvested just over 33,000 birds during last year's spring turkey season, the third highest on record.

Photo submitted

Last spring, hunters reported taking 33,061 birds, which represents a 6 percent increase over the previous year and the third highest total on record. Muhlenberg County led all counties with hunters reporting 681 birds taken there. Looking at it differently, Pendleton County led the state with 1.76 birds harvested per square mile.

Hunters are allowed a

limit of two bearded birds during the spring season, but no more than one bearded bird may be taken in a day.

The 2018 Kentucky Spring Hunting Guide provides information about current regulations, licenses and permits, legal equipment, safety tips and more. Find it online at fw.ky.gov or wherever licenses are sold.

Rumford to hold Book Signing at Haley House Museum on Sat., April 28th

The Bracken County Historical Society will be hosting a book signing on Saturday, April 28th from 10 a.m. to 1 p.m. at the Haley House Museum for Historian and Bracken County Historical Society member Jim Rumford. Having partially grown up in Bracken County, Rumford has dedicated his first book to his well known aunt and uncle, JoAnn and the late Tom Kinney.

According to the books official press release, the United States today is spiraling toward the same chaos that sparked a bloody war between the working class of America's heartland and the Great Tobacco Trust.

This is according to James ("Jim") C. Rumford, Jr.'s new book *Tobacco, Trusts, and Trump: How America's Forgotten War Created Big Government.*

From 1904 to 1910, the Tobacco Wars raged across America's heartland. An army of 10,000 anarchist "Night Riders" roamed cities and countrysides, setting fire to warehouses and barns, destroying millions of dollars of product, and torturing businessmen in front of their families.

The descendant of both a Night Rider and his victim, Rumford owns one of the largest private collections of Tobacco Wars primary documents in the United States. Since he was 6 years old, Rumford has wondered why more people don't know about the war's bloodshed and its permanent effects on the United States economy.

In *Tobacco, Trusts, and Trump*, Rumford cites nearly 300 sources to argue that the subjects of recent headlines—the TEA Party, Silicon Val-

ley oligopolies, Occupy Wall Street protests, the Socialist rhetoric of Senator Bernie Sanders, outsourcing of blue collar careers, and the election of President Donald J. Trump—echo those of the Tobacco Wars era.

Part memoir, part history, and part warning, *Tobacco, Trusts, and Trump* shows how American history is not a series of unconnected events—it's a line of dominoes: "Every historical event is both the cause of and result of some other event."

From Big Business monopolies that triggered financial recessions to the Populist and Progressive movements that enabled Big Government to strip Americans of numerous freedoms, the consequences of the Tobacco Wars could not be more relevant today.

Rumford is an entrepreneur, amateur historian, and CEO of Rumford Industrial Group. Originally from Louisville, Kentucky, he grew up in Bracken County, Kentucky, and now resides in Dayton, Ohio. For more information on Jim Rumford, read more at <http://www.JamesCRumfordJr.com>.
